Years of Experience	User Satisfaction Lift	Years in Automotive and Telecom OEM	Enterprise Platforms Designed

EXECUTIVE PROFILE

Enterprise UX Leader with 11+ years of experience designing scalable, mission-critical platforms within global automotive OEM and Fortune 500 telecom ecosystems. Proven track record of driving AI-assisted workflow optimization, governance frameworks, and enterprise experience transformation across complex, multi-stakeholder environments.

Specialises in translating business strategy into measurable UX outcomes — improving operational efficiency by 20%+, reducing IT ticket volume through AI-enabled workflows, and governing UX quality across cross-functional teams of 10+ stakeholders. Skilled in end-to-end UX research, usability testing, interaction design, accessibility (WCAG 2.2), and design systems within Agile and SAFe environments.

CORE COMPETENCIES

Enterprise UX Strategy & Vision | AI-Enabled Experience Design | Workflow Optimization & Automation | Governance Frameworks & KPI Systems

UX Research & User Interviews | Usability Testing & Heuristic Evaluation | Interaction Design | Information Architecture

Wireframing & Prototyping (Lo-fi to Hi-fi) | Persona & User Journey Mapping | Design Systems & Scalability | Accessibility (WCAG 2.2)

ServiceNow Experience Architecture | SAP Fiori Design | Stakeholder Alignment & Executive Communication | Agile / SAFe Product Delivery

PROFESSIONAL EXPERIENCE

Mercedes-Benz Research & Development India (MBRDI) — Bangalore

Apr 2023 – Present

Senior UX Designer — Enterprise UX Lead

- Led end-to-end UX strategy for 5+ mission-critical enterprise platforms used by 2,000+ engineers and business stakeholders across the Mercedes-Benz Group and Daimler Trucks AG.
- Delivered a 20% measurable improvement in user satisfaction by redesigning enterprise workflows, establishing governance-driven usability standards, and implementing continuous feedback loops.
- Conducted full UX research cycles — stakeholder interviews, contextual enquiry, heuristic evaluations, persona creation, user journey mapping, lo-fi and hi-fi wireframing, and moderated usability testing.
- Designed AI-assisted IT support experience (ServiceNow) reducing manual ticket creation by an estimated 30% and accelerating service resolution workflows.
- Defined and executed UX governance frameworks improving lifecycle visibility and discoverability across 100+ enterprise applications.
- Established UX KPI measurement frameworks tracking adoption rates, task completion efficiency, and satisfaction scores to guide iterative design improvements.

- Championed WCAG 2.2 accessibility compliance across all enterprise products, ensuring inclusive design coverage across 100% of product touchpoints.
- Integrated AI tools (Figma Make, Gemini, Galileo, Uizard) to accelerate prototyping, research synthesis, and workflow optimization while maintaining governed design standards.
- Mentored junior designers and promoted UX enablement across 3+ cross-functional product teams, fostering a culture of user-centered design.
- Partnered with product owners, architects, and engineering leaders to align UX roadmaps with organisational strategy and business objectives.
- Recognised with the Bronze Award for Commitment and Positive Impact — awarded for exceptional contributions to MBRDI product quality and team culture.

CGI Inc. — Bangalore — Oct 2018 – Mar 2023

Senior UX Designer — Enterprise ServiceNow Platforms

- Led UX strategy and execution for ServiceNow Customer Service Management (CSM) enterprise implementations serving AT&T, a Fortune 500 US telecom corporation with 200M+ customers.
- Designed scalable, modular workflow systems improving cross-department collaboration and task efficiency across 6+ enterprise product releases.
- Conducted end-to-end user research — requirements gathering, wireframing, interactive prototyping, stakeholder workshops, and usability testing to validate and iterate design decisions.
- Delivered research-backed information architecture and interaction models reducing friction in complex enterprise service ecosystems.
- Collaborated with SAP Fiori and Angular JS teams to maintain consistent, accessible enterprise design standards across platforms.
- Facilitated UX workshops and design critiques, mentoring junior designers and elevating UX practice maturity across 4+ delivery units.

Oddinary Marketing India Pvt. Ltd. (Client: Flipkart) — Mumbai — Apr 2017 – Oct 2018

UX Designer

- Owned UX quality and creative direction for Flipkart's Mobiles Category — India's largest e-commerce platform — across web, app, and mobile breakpoints.
- Led a 4-person design team delivering 50+ campaign and sales offer creatives per quarter, ensuring brand consistency and UX best-practice compliance.
- Coordinated cross-functionally with sales, product, and marketing teams to deliver high-priority campaign assets within tight deadlines.

Earlier Experience — Graphic, UI & Web Design — Bangalore & Mohali — Jun 2014 – Apr 2017

Graphic Designer / Web Designer — Cravan Craft | White Orange Works Media | Nimble Solution | Weblance

- Built strong foundation in responsive UI design, WordPress, front-end development (HTML/CSS), print and digital media, and end-to-end product experience across B2B and B2C clients.
- Managed client communication, design QA, and cross-functional developer collaboration across multiple concurrent projects.

STRATEGIC ENTERPRISE INITIATIVES (MERCEDES-BENZ MBRDI)

- Designed governance-driven lifecycle management system enabling application discoverability and resource transparency across 100+ enterprise apps — reducing audit overhead and improving stakeholder decision-making speed. Enterprise Application Inventory Platform (Power BI):
- Architected AI-powered IT support experience integrating natural language search with ticket creation workflow — enabling self-resolution and reducing manual IT ticket volume by an estimated 30%. Gen AI – Get Help (ServiceNow Catalog):
- Redesigned CRT application UX from first principles — improving task flow clarity and reducing report generation steps for project managers across multiple business units. Certificate Reporting Tool (Power Apps):

- Created transparency dashboard tracking software usage and ratings across Mercedes-Benz Group and Daimler Trucks AG, directly supporting cost optimisation and licence governance decisions. Software Usage Governance Tool (Power Apps + RPA):
- Designed stakeholder collaboration system for scrum masters and business leads — streamlining meeting scheduling, minutes management, and direct task assignment, improving team accountability and operational visibility. MOM Workbench (ServiceNow Collaboration App):

AI & DIGITAL ACCELERATION CAPABILITY

Actively integrating AI-assisted tools — Figma Make, Gemini, Galileo, Uizard, UX Pilot, Claude — to accelerate prototyping velocity, research synthesis, and design decision-making while maintaining governed enterprise standards.

Focused on embedding AI responsibly within enterprise systems to improve decision velocity, reduce manual effort, and surface actionable insights — without compromising compliance, data privacy, or design quality.

TOOLS & TECHNOLOGIES

Design & Prototyping: Figma, FigJam, Adobe XD, Sketch, Axure RP, Mural, Miro, Adobe Photoshop, Illustrator

Enterprise Platforms: ServiceNow, SAP Fiori, Microsoft Power BI, Power Apps

AI & Emerging Tools: Figma Make, UX Pilot, Gemini AI, Galileo, Uizard, Canva AI, Claude

3D & Spatial Design: Spline, Adobe Aero

Front-End (Foundational): HTML, CSS, JavaScript

Collaboration & PM: Jira, Confluence, Asana, Microsoft Teams

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- SAFe Certified Scrum Master 6.0.1 (Scaled Agile)
- Interaction Design Foundation — UX Management: Strategy & Tactics · User Research: Methods & Best Practices · Human-Computer Interaction (HCI) · Mobile UX Design · Accessibility: How to Design for All · Become a UX Designer from Scratch
- Udemy — Complete Figma Megacourse (Beginner to Expert) · Accessibility for UX Designers (WCAG 2.2) · ServiceNow Service Portal: Complete Guide · 90-Minute UX Audit + UI Redesign
- ServiceNow — User Experience Design · Next Experience Unified Interface · Predictive Intelligence Fundamentals · ServiceNow Fundamentals
- Simplilearn — All-in-One JavaScript Development Suite

AWARDS & RECOGNITION

- Bronze Award — Commitment & Positive Impact, Mercedes-Benz Research & Development India (MBRDI): Recognised for exceptional dedication, consistent design quality, and outstanding contributions to MBRDI's enterprise UX transformation.

EDUCATION

GGS College of Modern Technology — Mohali, Punjab 2010 – 2014

Bachelor of Technology — Electronics & Communication Engineering
